

# **ABG Technologies Limited**

## **INFORMATION SECURITY MANAGEMENT SYSTEM (ISMS) POLICY**

ABG Technologies Limited is a private limited company in Bangladesh. ABGTL is a FINTECH company that intends to provide the service as a Payment Service Provider. As the financial sector is one of the most susceptible sectors in the prospect of Information Security because of the nature and value of the business it executes using Information Technology, ABG Technologies is focused on the challenges to its Information Assets.

ABG Technologies Limited realizes the importance of legal compliance with the prevailing local laws, rules, and regulations, as well as the globally agreed standards, rules, and regulations that are applicable to its Information Security Management System.

With this agenda, ABG Technologies strives to achieve Information Security Management System performance that fulfills the applicable requirements satisfying the needs and expectations of its Interested Parties and continually improving to protect its Information assets.

ABG Technologies has initiated and implemented an Information Security Management System (ISMS) in the organization to ensure the confidentiality, integrity, and availability of its information asset. ABG Technologies Limited is committed to fulfilling all the legal and other requirements which are applicable to its Information Security Management System on an ongoing basis.

This policy is endorsed by the top-level management of ABG Technologies Limited and communicated to all parties relevant to its Information Security.
